exclusiveusb 

Exclusiveusb was created having in mind clients who desire something more than mass production goods have to offer. We know from our own experience, that the market lacks products which are more individual and made from high-quality natural materials and yet at the same time available to each one of You. Aiming to guarantee the highest quality, all our products are hand-made with aid of modern technology. Thanks to the newest electronic solutions from Patriot Memory the products of our company are unique and one-of-a-kind.

Services offered:

- USB flash drive branding with laser engraving. We use modern CO2 and YAG lasers, so that you get permanent engraving.
- Branding of the packages by laser engraving, pad printing or embossing (Depending on the type of packaging).
- Visualization of engraving commissioned by a client.
- Wide selection of additional packaging for products.
- Data uploading to the memory stick.
- **No minimum order for standard solutions!**

Apophis Gold

limited edition

Apophis is the highest quality usb flash drive designed for the most demanding Clients looking for exceptional and one-of-a-kind products. Thanks to the use of the authentic and certified meteorite this usb flash drive refers to "Apophis", the famous planetoid. The high-purity "VS1" diamond's 0,04ct is an excellent complement for the 4,5 billion years old meteorite. The casing of the Apophis is made of 200 years old African Black Wood considered to be the most luxurious wood in the world. The whole device is covered with 18-carat gold in the most exclusive version Apophis Gold. Handmade production and 20 years of experience of Gdansk Jewelers guarantee the highest quality of every detail of the product. This exceptional design is accompanied by the highest class electronics, USB 3.0 with its 64GB capacity and the 190MB/s reading speed. The product possess a lifetime guarantee of a producer.
